August to September

ErgoOne®

Pipetting optimized

USC
SCIENTIFIC
SIDE BY SCIENCE

ErgoOne pipettes are available in a full selection of volume ranges for maximum precision and accuracy. The 2-20 μL is offered in two formats – a standard tip cone that accepts 200 μL tips and an ultra-micro tip cone that accepts 10 μL or 10/20 μL style tips (not shown). All single channel ultramicro pipettes have stainless steel tip cones for increased durability.

ErgoOne pipettes will withstand the rigors of daily laboratory use, are fully autoclavable, and may be calibrated in your lab. The exterior is made with UV- and chemical-resistant polypropylene.

Single Channel

- US71000125 0.1-2.5 μL , metal ultra-micro tip cone, red plunger cap
- US71000510 0.5-10 μL , metal ultra-micro tip cone, red plunger cap
- US71000221 2-20 μL , metal ultra-micro tip cone, red plunger cap
- US71000220 2-20 μL , standard tip cone, yellow plunger cap
- US71001100 10-100 μL , yellow plunger cap
- US71002200 20-200 μL , yellow plunger cap
- US71101000 100-1000 μL , blue plunger cap
- US71505000 500-5000 μL , purple plunger cap

ErgoOne Single Channel Pipettes

Eight Channel

- US71080510 0.5-10 μL , red plunger cap
- US71081100 10-100 μL , yellow plunger cap
- US71083300 30-300 μL , green plunger cap

Twelve Channel

- US71120510 0.5-10 μL , red plunger cap
- US71121100 10-100 μL , yellow plunger cap
- US71123300 30-300 μL , green plunger cap

4-digit display for increased accuracy

Stainless steel ultra-micro tip cones for longer life

Plunger forces maximize control and minimize strain

Free Filter Tips with Purchase

Purchase a single channel pipette and receive a unit (10 racks of 96 or 960 tips) of the tips on page 3. Buy an 8-channel or 12-channel pipette and receive 2 units (20 racks of 96, same size only) of the tips on page 3. Same size only. Excludes the 5mL pipette.

Offer expires September 30, 2023.

*Valid until
September 30th, 2023*

*Please reference
Promotion Code: US0823*

TipOne® Filter Tips

Proprietary UHDPE filters block >99% of aerosols

Tip info is laser marked on each wafer

Filters are hydrophobic to prevent liquid absorption

Trusted Performance

TipOne® filter tips block >99% of aerosols to prevent cross-contamination. TipOne does not contain clarifiers or processing additives (slip agents, biocides, antistatic agents, etc.) and is made from pure virgin polypropylene. With TipOne, your results will not be compromised by potentially bioactive ingredients. Sterilized and certified free of detectable RNase, DNase, DNA, and pyrogens.

Easy Identification

High definition laser markings identify volume, lot number, and "FILTER" directly on the tip wafer, eliminating the need for labels. All information is easy to read whether the rack is open or closed.

Filter Tip Racks

Sterile and certified free of detectable RNase, DNase, DNA, and pyrogens. 10 racks of 96 (960 tips).

10 µL graduated (2.5, 10 µL)	US11213810
10 µL XL, graduated (1, 5, 10, 20 µL)	US11203810
20 µL Profile Point™, graduated (10 µL)	US11231810
20 µL beveled	US11201810
50 µL beveled	US11202810
100 µL Profile Point, graduated (10, 50, 100 µL)	US11231840
100 µL beveled	US11201840
155 µL beveled	US11245810
200 µL graduated (50, 100, 200 µL)	US11208810
300 µL graduated (100, 200, 300 µL)	US11209810
1000 µL	US11267810
1000 µL XL, graduated (100, 250, 500, 1000 µL)	US11221830

Why take risks with your samples?

Laboratory tests show >99% of 100 nm particles are stopped by TipOne ultra high density filters. Other brands can allow 6-25% of aerosols to pass through to your samples. With today's sensitive procedures, can you take that risk? See usascientific.com/tipone information to learn more.

10 µL XL fits ultra-micro pipettes and ErgoOne® 20 µL with ultra-micro tip cone.

July to August

It's Back!

Get a FREE Package of ImmEdge™ or ImmPrint™ Pens When You Order \$1000 or more of Any Vector Laboratories Products!

ImmEdge™ Hydrophobic Barrier Pen

The ImmEdge Pen is a hydrophobic barrier (PAP) pen for immunohistochemistry and in situ hybridization.

It provides a water-repellent barrier that keeps reagents localized on tissue specimens and prevents mixing of reagents when multiple sections are mounted on the same slide.

- Heat-stable
- Insoluble in alcohol and acetone
- Stable for use with buffers with and without detergent (Tween 20, Triton X-100, etc.)
- Completely removed by all commonly used xylene and xylene-substitute clearing agents
- Environmentally friendly - does not contain "ozone-depleting" substances as identified by the Montreal Protocol or the Council of the European Union
- Compatible with both enzyme - and fluorescence-based detection systems

ImmPrint™ Histology Pen

The ImmPrint Histology Pen is a solvent-resistant permanent marking pen designed for writing on frosted glass microscope slides, tissue cassettes, and most hard surfaces. The high density, fast-drying, black ink is resistant to most organic solvents encountered in histological applications such as alcohols and clearing agents. Unlike other pens commonly used for histology, the ImmPrint pen has a smooth writing tip that resists drying out.

- Solvent-resistant permanent marking pen
- Designed for writing on frosted glass microscope slides, tissue cassettes, and most hard surfaces
- High density, fast-drying, black ink is resistant to most organic solvents encountered in histological applications such as alcohols and clearing agents
- Has a smooth writing tip that resists drying out

Product Number	Description	Pkg Size
VECTH4000	ImmEdge™ Hydrophobic Barrier PAP Pen	2 Pens
VECTH6100	ImmPrint™ Solvent-Resistant Permanent Histology Marking Pen	5 Pens

Valid July 1st, 2023 until August 31st, 2023.

Promo Code **VECTPEN23**.

Please specify free pen selection at time of order.

Customer must order \$1000 of Vector Laboratories products, before taxes, on a single order.

May to September

EpiCypher®

SAVE 15% OFF EpiCypher's new...

CUTANA™

CUT&Tag Kit

Promotion Code **EPCTK15**

Cannot be combined with other offers or discounts

Valid until September 30th, 2023

Ultra-sensitive. Rapid results. Rigorously tested.

EpiCypher is a leading provider of user-friendly CUT&Tag reagents and workflows. Their new CUTANA™ CUT&Tag Kit is the result of rigorous optimization efforts and has been intentionally designed for rapid throughput and accessible pricing.

- Reliable workflow supported by robust controls
- Compatible with diverse sample processing conditions

Advantages include:

- Streamlined two-day protocol with no library prep
- Exclusive single-tube workflow maximizes yield
- Reliable profiling using low cell numbers
- Dramatically reduced assay costs
- Comprehensive kit goes from cells to sequence-ready DNA

Save 15%

September to November

Coming
September 2023!

Purchase 1 Product and **Get 50% OFF** a Second Product You've Never Tried Before!

Are there more Vector products you would like to try? Each time you purchase a Vector Laboratories product between September 1st, 2023 and November 30th, 2023, receive a 50% discount on a Vector product you've never tried before. Please contact us for assistance in choosing your new product.

Reference promotion code **VECT23NEW** at time of order.

Valid until November 30th, 2023.

50% discount is applicable to the list price and can only be applied to a product that has not been previously purchased by the customer.

Vector Laboratories offers a full range of products for:

- Immunohistochemistry / Immunocytochemistry
- Immunofluorescence
- Nucleic Acid Labeling and Detection
- Enzyme Substrates
- Lectins and Glycobiology Reagents
- Antibodies

MJS BioLynx Inc. is proud to represent the following companies in Canada ...

Cell & Molecular Biology

- Crystallography
- Immunohistochemistry
- Immunofluorescence
- Glycobiology
- Transfection & Electroporation
- 3D Cell Co-culture
- 3D Laboratory Services
- Density Gradient Media
- Cell Culture Media
- Cell Migration Assays
- Exosome Purification
- PCR, qPCR & PCR Clean Up Reagents

Antibodies and Proteins

- Enzymes & Antibodies
- Nucleosomes & Histones (Epigenetics)
- Lipids and Fatty Acids
- Recombinant Proteins
- ELISAs
- Protein Expression Reagents
- Cytokines

Labware & Equipment

- Pipette Tips
- Semi Automated Pipettors
- Freezer Racks
- Tubes
- Histology Labware
- Sample Collection and Management
- Sample Storage
- Microwell Plates
- Water Purification Systems
- Benchtop Equipment
- SPR
- Tube Labeling and Thawing
- qPCR

Microbiology

- Endotoxin Testing
- Glucan Products
- Yeast Growth Media
- Microscope Slides, Stains and Accessories
- Sterilization Products

+ More

- Detergents
- Protein Purification & Assay Reagents
- Chromatography
