# System Setup

TubeWriter 360 and inkjet cabinet in stacked configuration.

## Component Dimensions:

1. TubeWriter 360 Print Station —18"x18"x16"(W x L x H) weighing 50 lbs.  
— 460mm x 460mm x 410mm weighing 22.7 kgs.
  2. Inkjet Cabinet (Typically placed underneath lab bench as shown in 4)  
—14"x11.5"x21.5"(W x L x H) weighing 50 lbs.  
— 345mm x 285mm x 541mm weighing 22.3 kgs.
  3. Umbilical Cord—10' flexible connector between Printing Unit and InkJet Cabinet. Any clearance holes (not required) should be 2 inches in diameter.
  4. Two standard electrical outlets 100-240V AC.
  5. Stacked configuration saves bench top space.
- Note: Customer supplied computer required, but not shown.

## Computer Requirements:

- Windows 7 (or later) PC (not required to be dedicated).
- Microsoft Excel 2007 (or later)
- 1 available USB port
- 50mb free hard drive space
- Local administrative login for installation
- TubeWriter folder must have readable/writable permissions
