## DRYING RACK

- Peg sockets have closed ends eliminating leakage and consequent biohazards
- 72 push in pegs can accommodate items with "neck" bore more than 15 mm are included along with 11 small pegs of diameter 6 mm for small diameter items such as test tubes
- Made from a single mold of 4 mm rigid HIPS

Cat. No.	Description	Qty/Pk
K213	DRYING RACK, PLASTIC	1

## ENDURO POWER SUPPLY

The ENDURO Power Supplies are ideal for DNA, RNA and protein electrophoresis. They provide a high degree of sophistication and versatility yet are extremely easy to use. Safety features incorporated into the systems include automatic crossover, no load detection, sudden load change and over voltage protection.

- Dependable performance, intelligent control
- Simple to program
- Compact, lightweight and stackable

Cat. No.	Description
E0303	ENDURO 300V POWER SUPPLY

## ENDURO SEMI-DRY BLOTTER

FLV-11.20

**\$1,276**

~~\$1,619<sup>37</sup>~~

The Enduro Semi-Dry Blotter provides great flexibility in a lab since it can be used for all types of blotting: Western, Southern, and Northern.

- Rapid transfer times - typically 15-30 minutes
- Uniform head dispersion

Cat. No.	Description
E2020-SDB	SEMI-DRY BLOTTER

## OPTIMAX THERMAL CYCLER

This simple to program PCR thermal cycler unit is compact in design and built to perform. Programming is intuitive with the large display and multiple pre-programmed templates supplied with unit.

- Ideal for Genotyping
- Unique Flexible Programming with FlexTemp™ technology
- Fast ramp rates 5°C heating / 3.5°C cooling
- Program 1 to 6 different annealing temperatures using the intuitive interface

Cat. No.	Description
TC9610	THERMAL CYCLER
