

## Do you know the new way to DAB?

**DABBING is not just a dance move!**

### DAB your way to success!

You've probably figured out Vector® is not releasing a new dance move...But they are spreading the news of a simpler and safer way to mix DAB substrate!

Why are you weighing volatile DAB powder and wasting time dissolving tablets?  
Simply mix liquid ImmPACT® DAB EqV, 1:1 (chromogen:diluent) and apply to sections.

ImmPACT DAB EqV is the most sensitive and convenient DAB format available for IHC staining.  
For a limited time, receive **20% OFF** your order of ImmPACT DAB EqV.

- > Deep brown-colored precipitate, suitable for all HRP systems
- > No buffers needed
- > Working solution stable for 2 weeks when stored at 4 °C
