

**CHROMATOGRAPHIC  
SPECIALTIES INC.**

Dear Valued Customers,

We are pleased to announce that we are merging with our sister Company – MJS BioLynx Inc., which for 25 years has operated under the same roof and philosophies as Chromatographic Specialties, providing high quality life science research products.

The motivation behind this transition is both for our customers and our staff. For customers, we will be able to provide an all-in-one shop, offering chromatography consumables, life science products, and instrumentation in one place. For our staff, this will allow us to bring everyone closer together as one cohesive company - with one set of policies, procedures, and name. Upon merging, MJS BioLynx will remain as our Life Science division.

Some background on MJS BioLynx Inc.:

In 1998, MJS BioLynx Inc. was born out of a desire to service the Life Sciences Research market in Canada, and over the past 25 years, it has successfully achieved that vision. Just as CSI has over the past 60 years, MJS BioLynx has been built upon prioritizing excellent customer service, technical support, and flexibility.

All customers will now have direct access to this high-quality portfolio of Life Science research products and resources through Chromatographic Specialties Inc. If you are not already familiar with their offerings, please take a look below for more information.
