

Micro Valves for GC and LC

- Convenient panel mount
- Compact 1" design
- 200 psi, .060" bore
- Variety of configurations

Simplify your liquid or gas handling application with a VICI Precision Sampling Micro valve. The unique design of the fitting detail allows a leak-free seal with no potential for rotor damage from overtightening. Internal parts are PEEK and PTFE.

(Fittings not included)

"T" flow path

- 3 ports 660100
- 4 ports 660110
